COMMUNITY EXTENSION ACTIVITIES

**THERE IS NO TOOL FOR DEVELOPMENT MORE
EFFECTIVE THAN THE EMPOWERMENT OF WOMEN**

- KOFI ANNAN

This was the motivating factor for the institution's Women studies Centre to initiate the training in the following courses

TAILORING PROGRAM

The main objective of this tailoring training program is to enhance the quality of life of women and teenage girls through enhancement of their skills and knowledge. They learn newer vocational skills which can help them earn more income and become economically self-sufficient and independent. The participants are trained by a qualified professional tailoring teacher. It is monitored by Convenor and members of the Women Studies Centre. After successful completion of training, few needy women are given sewing machines to take home which would be helpful in their little business. The trainees exhibit their skill of stitching, whatever they have learned from their tailoring class in the valedictory session of the program. Every year around 460 women have been trained in the summer. From 2022, the tailoring course has been extended throughout the year.
