

Guest Lecture on

“Young Entrepreneur - Startups”

25th & 27th July, 2019

Organized by: **Department of Commerce**

The Department of Commerce organized a Guest Lecture on “Young Entrepreneur – Startups” on 25th & 27th June. Mr. Rajesh B. Myneni, MD, AVONOVA Domestic automation Tools, Vijayawada was the Resource Person. He elaborated about AVONOVA.

He also stated that Home automation or domestics is building automation for a home, called a smart home or smart house. A home automation system will control lighting, climate, entertainment systems, and appliances. It may also include home security such as access control and alarm systems. When connected with the Internet, home devices are an important constituent of the Internet.

A home automation system typically connects controlled devices to a central hub or "gateway". The user interface for control of the system uses wall-mounted terminals, tablet or desktop computers, a mobile phone application, or a Web interface. This can also be accessible off-site through the Internet.
