Students at the Programme

# Career Orientation Programme

Organized by  
**Department of Zoology**

**24<sup>th</sup> June, 2019**

## Report

Career Orientation Programme is designed to prepare students to have a greater understanding of educational and career opportunities and options so as to assist them in marketing meaningful and informed career choices. The resource person for this programme is Dr. V. Subhashini, HOD, Zoology. To start with she gave the objectives of Career Orientation which are as follows.

1. To gain an understanding of one's own interests, abilities, aptitudes and strengths.
2. To develop a career development foundation skills
3. To gain valuable career information and related job training options and opportunities.

She informed that one should be favorably competitive on the job market. For this a student's needs education, skills, work experience, ability, willingness, timing, personality and character. She told that one has to set goals and priorities to choose their career. A student should have the ability of decision making strategic and rational thinking, conflict resolution to succeed in his career.

She provided a list of Universities in India especially in Andhra Pradesh, and the courses they are offering, she mentioned about different opportunities for life science students to enter into IIT's of Bombay, Pune, etc. for a five year integrated course with M.Sc., Ph.D students are also made aware of the different job opportunities and civil service examinations.

In conclusion, she suggested that the resources for job opportunities are Newspapers, networks and associations and websites. She also advised the students to inform friends and family and circulate their CV. The programme helped the students to develop positive attitude towards study and work.
