ABOUT THE COLLEGE:

Kakaraparti Bhavanarayana College is a vivacious outcome of a century old renowned charitable organization, S.K.P.V.V. Hindu High School Society with "Tejaswina Vadheethamasthu" as its motto. Since its inception in 1965 it marked an epoch in innovative education, in an academically and economically impoverished area. The college with heightened social imagination and ardent zeal, shone like a lodestar led innumerable students towards the goal of an illustrious life. The ever vibrant college grew by leaps and bounds and has evolved with times. It has been adorned with the Autonomous status by the UGC in the year 2010. It has been reaccredited with "A" grade by NAAC in 2013, Certified with ISO 9001-2008 which has been (given) for Quality Management Standard and accorded with CPE in 2016 by UGC. In the NIRF Ranking, the college listed for 92nd place in National Level and which stands out to be the acme of academic achievement.

RESEARCH PROMOTION AND MONITORING CELL:

In order to strengthen the Research Base of the college, the Management has taken the initiative of constituting the 'Research Promotion and Monitoring Cell' during 2016. The cell has been taking measures to spread Research Culture among the faculty of the college. The aims of the cell are to establishment of Research Centres in the college for various subjects, encouraging eligible faculty to be recognised as research guides by the affiliating University, strengthening the Research Paper Publication Activity in the college, encouraging faculty to apply for Major Research Projects, sensitising faculty to be needs of the society by conducting surveys, participation in outreach activities, helping in the establishment of Incubation Centres in the college in emerging areas of Research and promoting Consultancy to sharpen the skills of the faculty.

ABOUT THE SEMINAR:

Green Accounting is a new branch of accounting aimed at accounting for the environment and its well-being. Although it is a completely new branch of study and practice; it's soon gaining relevance because of its importance. The adoption of Green Accounting depicts the commitment an enterprise has towards the environment. It deals with the three most important factors people, profitability and the planet and also more or less deals with the costs and benefits that an environment can offer to a business.

In fact, many developed countries like USA, UK and Germany have recognized the significance of Green Accounting long ago. Having experienced the deleterious effects of environmental degradation. Policy makers have thought it appropriate to account for the costs and damages involved in the deterioration of the environment. It has also been felt that it is the responsibility of the corporate sectors to devise and adopt suitable accounting policies for recording such adverse effects. There is also a point of view to modify the Generally Accepted Accounting Principles (GAAP) to include Green Accounting as a standard practice. Following which, accounting organisations are suggesting to governments to prepare and publish Standard National Accounts (SNA) including the concepts of the Green Accounting.

OBJECTIVES:

- ❖ To examine the rationale for Green Accounting in the context of growing environmental hazard.
- ❖ To devise Accounting policies to recognise the costs and benefits associated with Green Accounting process.
- ❖ To compare and contrast Green Accounting with the social cost benefit methodology of the UNIDO.
- ❖ To explore the possibility of developing an accounting standard for adoption among the developed and developing countries.

MAIN THEMES:

- ❖ Green Accounting – Concept & Issues
- ❖ Social Cost Benefit Analysis
- ❖ Environmental Law & Compliance Costs
- ❖ Formulation & Adoption of Accounting Standard for EA
- ❖ Environmental Accounting – Cross Country Experiences
